Call for R&D Proposal Under Nagaland Science Mission (NSM)

NSM invites research proposal under special call for Multi-disciplinary areas of Science & Technology to address location specific problems and other potential areas for R&D with a focus to bring out solutions/product(s) through S&T applications in Nagaland.

Who can Apply?

Project Proposals can be submitted by any Indigenous Naga Scientists/ Technologists/Engineers/Researchers working in academic institutions/Registered societies/R&D institutions/ Universities having adequate in-house infrastructure/facilities for R&D.

About The Grant:

- a) The grant will be restricted to laboratory consumables and minor scientific equipments only.
- b) The Project Duration will be for a period of Two Years only.
- c) The Technical Expert Committee will evaluate the proposals and select the best few proposals for financial support, strictly based on the technical merit of the DPR which will be final and binding.

How to Apply?

- a) Any interested applicant can obtain the prescribed format of the proposal and general guidelines for submission of the project from the Office of NSM (Address mentioned below) or through email request to NSM.nagaland@gmail.com.
- b) The Applicants are required to submit completed proposal format in MS word and pdf file through email and one hard copy of the same with all original signatures appended in the Certificates from Investigators & Endorsement from the Head of the Proposer's Institution to be sent by post or in person to:
Mission Director, Nagaland Science Mission,
Directorate of Science & Technology,
Below Civil Secretariat, Kohima – 797004, Nagaland.
Email: NSM.nagaland@gmail.com
- c) **Last Date of Submission of the Proposal: 15th February, 2025**
